Ms. Annette Feliberty Ruiz, Chief
Point Sources Permits Division
Water Quality Area
Environmental Quality Board
PO Box 11488
San Juan, PR 00910

Dear Ms. Feliberty Ruiz:

**Puerto Rico Electric Power Authority
Aguirre Power Complex – NPDES Permit PR0001660
Special Condition 23.n – Validation of the Interim Mixing Zone**

The renewed Aguirre Power Complex NPDES Permit became effective on January 1, 2011. According to the Permit's Special Condition 23.n; by March 31, 2011 PREPA shall submit a Temperature Monitoring Protocol and Dye and Thermal Plume Studies Quality Assurance Project Plans (QAPPs) for the validation of the mixing zone.

These QAPPs are hereby included. If you need additional information, please contact Mr. Ruperto Berrios Santos Water Quality Department Manager, at (787) 521-4964.

Cordially,

Francisco E. Lopez, Head
Environmental Protection and
Quality Assurance Division
